

Amendments to the Specification:

Please amend the specification as follows:

Please replace paragraph starting at page 1, line 3, with the following rewritten paragraph:

The invention relates to a coolant (refrigerant) condenser having a network or block composed of tubes and ribs (fins), and collecting tubes (headers) arranged on both sides of the network and further having a collector which is arranged in parallel with and connected to one of the collecting tubes by means of at least one inflow opening and at least one outflow opening ~~and is arranged in parallel with it, in particular according to the preamble of patent claim 1 or claim 10.~~
